

I would like to make it known that I highly value appreciate KLOVE radio station and listen to it every day for many hours each day. It helps me keep a positive attitude, dwell on positive things and encourage me in my faith. I have tried to listen to other stations and they depress me and insult me with the vulgar jokes and subject matter. It is not in good taste most of the time.

I think if K-LOVE were replaced with another station that is just like all the other stations, it would adversely effect a lot of people in this community. The beauty of K-LOVE is that it is listener supported because we all know we need it and we want it.

I know I would be more depressed if it weren't around.

Finally, K-LOVE serves the public interest in providing community service event advertising free of charge and call in talk shows, counseling programs, valuable news programs, emergency weather announcements, etc.

Please don't consider taking K-LOVE or stations like it off the air. It meets a very real need for a tremendous number of honest, taxpaying citizens. Thank you for your time.
